1. About Visualise™

Visualise™ were the first in Australia to offer a 3 Year Guarantee as well as a Certificate of Compliance with every Braille and tactile sign in our standard range. This is yet another reason why so many architects, designers and decision makers from all over Australia specify and insist on **Visualise™** Braille & Tactile Signs – the sign that is ‘Setting the Industry Standard’.

Visualise™ Braille & Tactile Signs are proudly manufactured in Australia by Signcraft Pty Ltd to a Patented design incorporating smooth to touch raised and embedded tactile lettering, and securely embedded stainless steel spheres for Braille characters.

As well as being a pleasure to use, the standard range of **Visualise™** Braille & Tactile Signs conform to the requirements of the Building Code of Australia D3.6, the requirements of the Australian Standards AS1428.1, and with Braille in accordance with the criteria set by the Australian Braille Authority. From the very beginning Visualise™ have worked within the Australian Standard, and in many cases have surpassed them in the demand to create the best possible product for the end user. Visualise™ Braille & Tactile Signs have been designed to be impervious to a wide range of cleaning products and solvents.

As the manufacturer of the largest range of stock line Braille & tactile signs available in Australia, we provide a complete 3 Year Product Guarantee as well as offer a Certificate of Compliance with all stock line items. **Visualise™** also manufacture custom design Braille & tactile signs to suit our client's individual requirements.

Visualise™ Braille & Tactile Signs... *Setting the Industry Standard*

Manufactured

To a Patented Design

Conform

To Australian Standards AS1428.1

To the Building Code of Australia D3.6

Braille

Good contrast between background and tactiles

Any Colour We can apply coloured or printed vinyl to the reverse of clear acrylic and can also coat the tactile elements to colours of your choice

Important Note

Use the colour examples as a guide only. Printed colours may vary to actual sign colours.

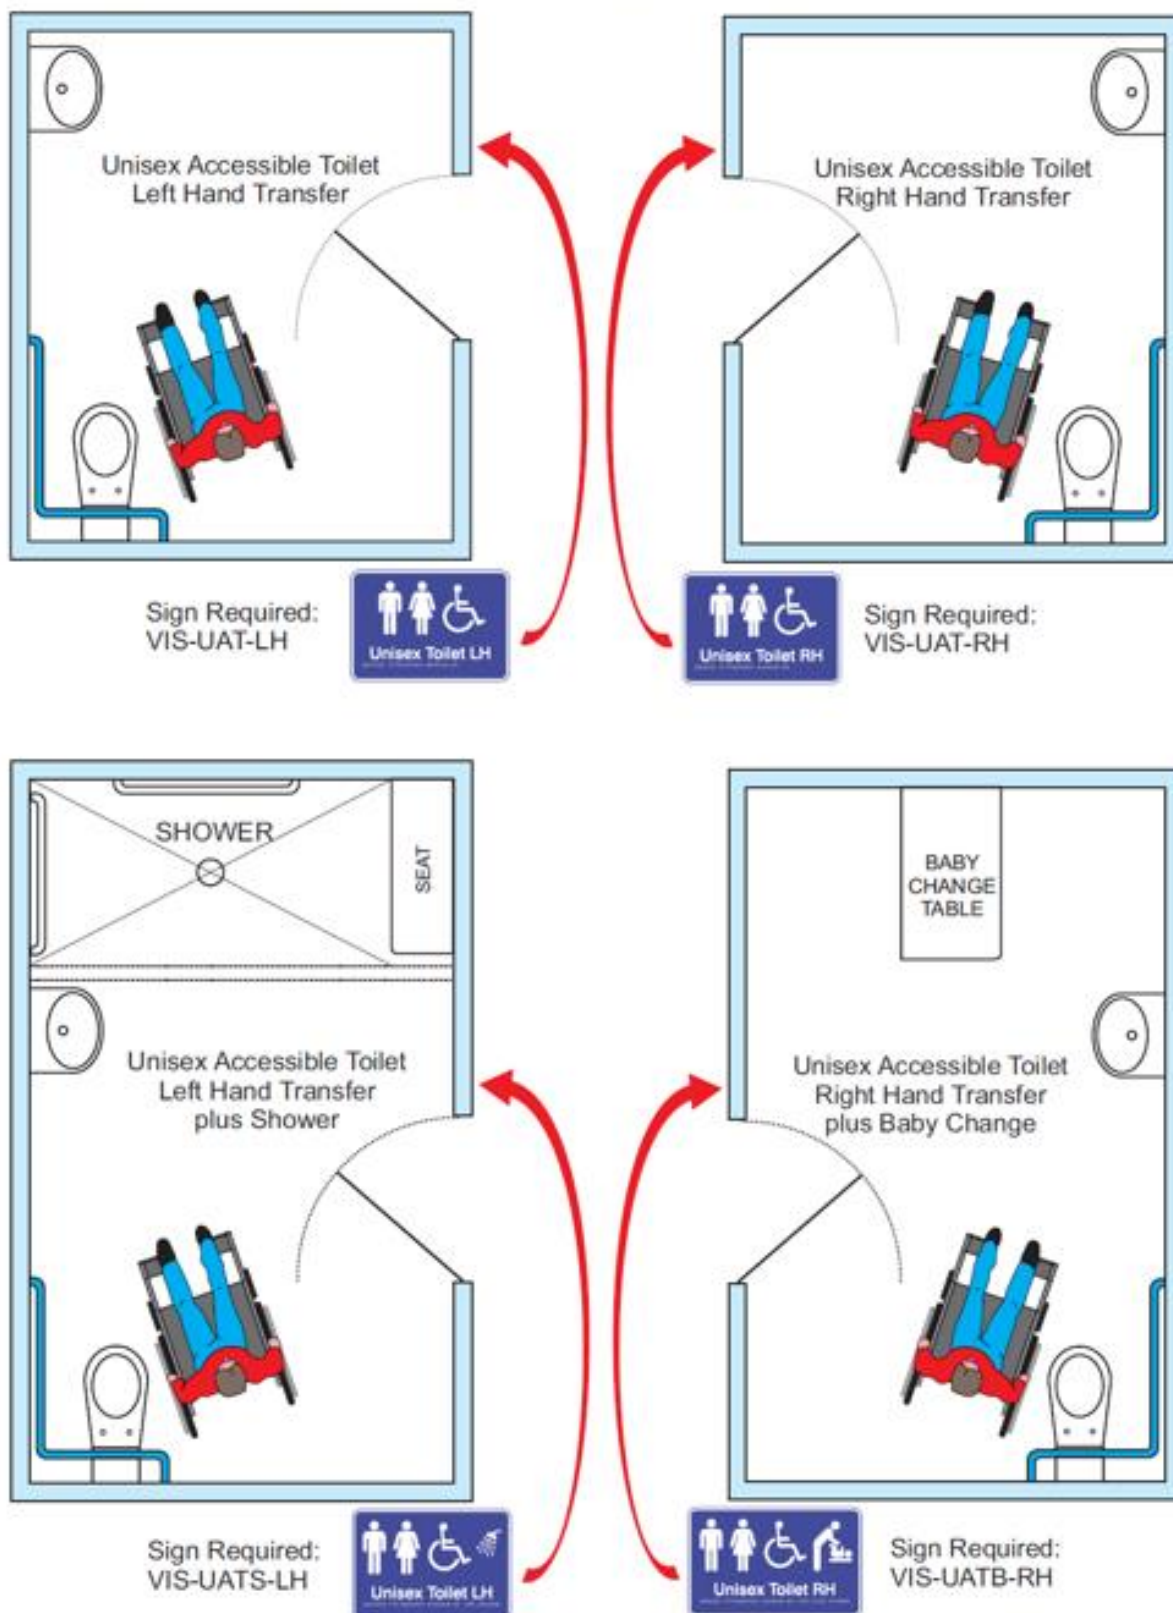

2.9 Left hand / Right hand Transfer

LH or RH Transfer? How do I tell?

The Australian Standards AS 1428.1 state "Signs for unisex accessible facilities shall be provided with the letters LH or RH to indicate a left-hand or right-hand side transfer onto the WC pan."

The illustrations below show the signs that would be required for each facility.
